## Sunekos 1200 & 200

*Dermal biogenesis or skin regeneration.*

A hyaluronic acid gel combined with amino acids which assist the skin to regenerate the extracellular matrix. Injections are not targeted at specific folds but more of a general skin rejuvenation improving fine lines, improving plumpness to the skin and skin hydration. We recommend a course of 3 - 4 weekly treatments with the Sunekos 200. We can add in the Sunekos 1200 to provide more volume or lift to the face if necessary.

	3 Treatments	Per Treatment
Cost per treatment or For course of 3	£575.00	£200.00

Prices are quoted for 1ml of teoxane hyaluronic acid. The product choice will depend upon the area treated. **We use Teosyal RHA 2,3,4 and Ultra Deep.**

Prices all depend on volume of product used, often 1ml at £240 is enough, sometimes an extra ml or 2 is required.

2nd syringes are charged at a rate of £150
